## FACT SHEET – MARKETING MEMBERSHIP COMMUNICATION CHANNELS

Scouts Victoria has prepared this Fact Sheet to outline the marketing and communications channels available to members of Scouts Victoria. Often members of Scouts Victoria need to reach other members of Scouts Victoria to share information about an upcoming event, a training activity and so on.

The Scouts Victoria communication strategy is to contain all upcoming news and events within the weekly enews, Be Informed which is disseminated to all adult members and Rovers. Leaders are then responsible for sharing relevant information with youth members, parents and so on.

One of the significant reasons for this is based on the feedback received from you, our members a couple of years ago, that you were receiving too many emails and often not able to read them all.

Furthermore, the Scouts Victoria policy is that Andrew Taylor as Assistant Chief Commissioner of Marketing and Communications must approve any direct email or mail-out to membership. State Leadership Team members may issue specific mail-outs (email or post) to specific membership following consultation with Andrew Taylor.
