

# Regent Honey Eater Weekend

## 21-22 July 2018

We are happy to confirm that the event will return on 21-22 July 2018.

You are invited to sign up to participate in tree planting to promote biodiversity and habitat for the endangered Regent Honey Eater, enjoy a weekend of camping, and work towards some environmental/project badge work too.

The event location will be confirmed closer to the event and a map provided to all participants. Participants will need to provide transport, camping equipment and self-cater for the weekend. Members under 16 will require qualified Leader supervision for the event.

The event is free, however registration is required.
