

AIRLINES OF THE WORLD GAME

Print out enough for one set per group/patrol. For each group/patrol, cut out the squares for each set, mix them up in the two piles and stack each pile with words facing down. The participants can take it in turns (in a relay) to run from one spot to the cards and have to take a card from each pile and try to match the Airline with the Country. The group/patrol with all airlines and countries correctly set out first wins the game.
