

WARRENHEIP W Map No.7622-1-3

Map created on Date: 28/10/2022

www.delwp.vic.gov.au/maps

Refer to [Information Sheet](#) for map legend.

Grid Convergence (Grid N to True N) 1° 46' 26"
 Magnetic declination (True N to Magnetic N) 10° 56' E
 Grid Magnetic angle (Grid N to Magnetic N) 12° 43' E

VICMAP TOPOGRAPHIC MAPS ONLINE

VICTORIA'S MAP INDEX SYSTEM

- 7921-N Vicmap Topographic 1:50 000
- 7921-4-S Vicmap Topographic 1:25 000
- 7921-1-4-S Vicmap Topographic 1:30 000 A3
- 7921-1-4-2 Vicmap Topographic 1:30 000 A4

Victoria
Australia

TECHNICAL NOTES

PROJECTION:
Universal Transverse Mercator (UTM) Projection

DATUM:
Horizontal: Geocentric Datum of Australia (GDA).
Vertical: Australian Height Datum (AHD).

GRID:
Grid Interval 1000 metres.
Map Grid of Australia 1994 (MGA94)
Tiles 7021 to 7627: Zone 54
Tiles 7721 to 8823: Zone 55
Grid values are shown in full at each grid corner of the map.

ELEVATION:
Contour interval 10 metres or 20 metres depending on terrain.
Index contour interval is 100 metres.

ACCURACY:
Standard of accuracy conforms to specifications and classification AA1 of the survey Co-ordination (Surveys) Regulations 1992.

HORIZONTAL:
+/- 12.5 metres of true position at map scale.

VERTICAL:
Not less than 90% of well defined detail within +/- half of the contour interval.

COMPILATION:
Compiled from DELWP Vicmap and Victorian Spatial Data Library (VSDL) information.
The currency range of source data is as follows:
Vicmap Transport: 2022
Vicmap Property: 2022
Vicmap Features of Interest: 2022
Vicmap Vegetation (Treecover): 2022
Vicmap Vegetation (Plantation): 2021
Vicmap Hydro: 2022
Vicmap Elevation: 2022
Vicmap Admin (Local Government Areas): 2022
Parks and Conservation Reserves information derived from Vicmap Property and other Victorian Government Data: 2022
Other Crown Land information derived from Vicmap Property and PLM100: 2022
SA and NSW topographic data sourced from Department for Environment and Heritage, and Department of Lands respectively: 2020

VICMAP PRODUCTS

The Department of Environment, Land, Water and Planning's framework spatial information products are managed by Land Use Victoria (LUV) and distributed under the Vicmap brand. For more information visit www.land.vic.gov.au/maps-and-spatial/spatial-data/vicmap-catalogue

Vicmap Topographic
Specials - maps with noted attractions and tourist facilities covering popular areas in hardcopy format.
Standard Topographic Series - maps covering the State at 1:25 000, 1:50 000, 1:100 000, also 1:30 000 A4 and 1:30 000 A3.

Vicmap Digital
Vicmap Digital is the foundation spatial information in Victoria that is developed and managed by LUV. The information provides the foundation to Victoria's primary mapping and spatial information systems, and for building business information and systems.

Vicmap Viewer
Vicmap Viewer is a mobile app that allows for the easy discovery, access, purchase and download of Victoria's rich suite of over 10,000 topographic maps in GeoPDF format. Vicmap Viewer can be downloaded from Google Play and the Apple App Store.

Vicmap Hardcopy Maps
Vicmap hardcopy maps are available state-wide at a scale of 1:50,000, and selected 1:25 000 and 1:100 000 as well as a *Specials*. They can be accessed from vicmaptopo.land.vic.gov.au

NOTES TO THE MAP USER

Roads - Depiction of roads and tracks on this map does not necessarily indicate a right of way. For the most up to date walking track information in Parks and Reserves refer to the Parks Victoria website: www.parks.vic.gov.au
Tracks depicted in waterbodies are only accessible when waterbody is dry.

The Grampians Peak Trail

The Grampians Peaks Trail is a 164km, multi-day walk that showcases the many and varied landscapes across Grampians National Park (Gariwerd). The Trail is a challenging Grade 4 and 5 long distance hike, in some very remote and challenging areas of the park. It is important that hikers are experienced, prepared and have a good fitness level and navigation knowledge. For further information or to book your Grampians Peaks Trail experience, call into Brambuk the National Park and Cultural Centre in Halls Gap or visit parks.vic.gov.au

Waterbodies - Waterbodies displayed on this map depict the outline of the lake or reservoir at full supply level and may therefore not accurately reflect current water levels.

Administrative Boundaries - The position of administrative boundaries shown on this map are only approximate.

Nomenclature - Inclusion of a name on this map does not imply its approval by the relevant nomenclature authority.

Maritime Navigation - This map is not to be used for maritime navigation purposes.

Interstate Data - SA and/or NSW data, if displayed on this map, may not exist over the full extent of this mapsheet, and/or may not match Vicmap data.

This map has been automatically generated and may contain errors.

GEOCENTRIC DATUM OF AUSTRALIA

This map is produced on the Geocentric Datum of Australia (GDA). GDA supersedes the Australian Geodetic Datum 1966 (AGD). For all practical purposes GDA is the same as the World Geodetic System (WGS84).

Contact the Intergovernment Committee on Surveying and Mapping (ICSM) for more details at www.icsm.gov.au/gda2020

Build up area.....	
Freeway, route marker, highway, bridge.....	
Secondary road: sealed, unsealed.....	
Local road: sealed, unsealed.....	
Vehicular track: 2WD, 4WD.....	
Private access, proposed road.....	
Walking track and/or bicycle track.....	
Great Dividing Trail.....	
Surf Coast Walk.....	
Bicentennial National Trail.....	
Australian Alps Walking Track.....	
Grampians Peak Trail.....	
Road Restrictions.....	
MVO Maintenance Vehicles Only	
SSC Subject to Seasonal Closure	
SHWL Subject to Height or Weight Limits	
RPC Road Permanently Closed	
RU Road Unmaintained	
DWO Dry Weather Only	
Gate or cattlegird, levee bank.....	
Embankment, cutting.....	
Railway, tramway.....	
Railway station, railway siding.....	
Railway: disused, dismantled.....	
Railway bridge, railway tunnel.....	
Building, place of worship.....	
School, public hall, police station, fire station	
Ambulance, Neighbourhood Safer Place....	
SES, Hospital, Emergency Markers.....	
Pipeline, disappearing underground.....	
Power transmission line.....	
Trigonometric station, spot elevation.....	
Landmark area: quarry.....	
Landmark object: tank or well, tanks to scale.	
Mine, helipad.....	
Landmark area, recreation area.....	
Tree cover: scattered or medium, and dense..	
Plantation type: hardwood, softwood, unknown	
Contours, rocky outcrop, hill shading.....	
Depression contours.....	
Cliff, wind turbine.....	
Sand, sand dunes.....	
River, creek, crossing, adit.....	
Aqueduct, channel, drain.....	
Lake: perennial, intermittent.....	
Dam or weir, dam carrying road.....	
Falls, rapids.....	
Waterholes, swimming pool.....	
Water well or bore, spring.....	
Land subject to inundation.....	
Swamp or marsh.....	
Shoreline with mud or sand flats, mangroves.	
Rock: bare or awash, rocky ledge or reef.....	
Exposed wreck, lighthouse.....	
Breakwater, pier or jetty, boat ramp.....	
Navigation beacon, wharf.....	
Crown land, cadastral, restricted area.....	
Parks under National Parks Act.....	
Local Government Area boundary.....	
State boundary.....	

PRODUCTION:

Prepared under the direction of the Director, Land Use Victoria, Department of Environment, Land, Water and Planning, Victoria.

USER COMMENTS:

Users noting any errors or omissions are invited to notify (in writing) the Director, Land Use Victoria, Department of Environment, Land, Water and Planning.

Features Reserve	SSR Stream Side Reserve
LR Lake Reserve	WR Wildlife Reserve

SAMPLE MAP GRID REFERENCE MAY NOT BE RELEVANT TO MAP SHEET

BEFORE GIVING A GRID REFERENCE, ALWAYS STATE THE NAME, NUMBER AND DATUM OF THIS MAP

GRID ZONE DESIGNATION 54H or 55H	TO GIVE A STANDARD REFERENCE ON A SHEET TO THE NEAREST 100 METRES
100,000 METRE SQUARE IDENTIFICATION	SAMPLE POINT • 290
DV	1 Locate the first VERTICAL grid line to LEFT of point and read LARGE figure labelling the line either in the top or bottom margin, or on the line itself: 52
Locate 100,000 metre square identification value	2 Estimate tenths from grid line to point: 7
IGNORE the SMALLER figures of any grid number; these are for finding the full coordinates. Use ONLY the LARGER figures of the grid number. For example:	3 Locate first HORIZONTAL grid line BELOW point and read LARGE figure labelling the line in either the left or right margin, or on the line itself: 70
456 000	4 Estimate tenths from grid line to point: 5
	SAMPLE REFERENCE 527705
	If reporting beyond 18 degrees in any direction, prefix Grid Zone designation as: 54HDV527705, GDA or 55HDV527705, GDA

All maps are orientated towards Grid North
